EXPERIENCE

Black Squirrel Timing Company — *Track and Cross Country Meet Timer*

AUGUST 2025 - PRESENT

As a Meet Timer at Black Squirrel Timing Company, I traveled around Nebraska and Kansas to record and publish Cross Country and Track results online. As the youngest member of the team, I was able to educate others about new and upcoming technology. Through this position, I was able to further my knowledge and experience unique opportunities.

PFv Performance LLC — *Track and Cross Country Meet Timer*

FEBRUARY 2024 - MAY 2025

As a Meet Timer at PFv Performance, I traveled around Lake County in Illinois to record and publish Cross Country and Track results online. During my time at PFv Performance, I trained two different employees, and I was responsible for managing the equipment and remote troubleshooting. I also led a charge to develop new styles and expectations for how Track and Cross Country should be operated.

Tamarak Day Camp, Lincolnshire IL — *Camp Counselor*

SUMMER 2023 - SUMMER 2026

For the past four summers at Tamarak Day Camp, I worked as a Day Camp Counselor for boys who are 7-8 years old. I collaborated with the other counselors for my age group, along with the other leadership staff around the camp.

DSI Club, Deerfield High School, Deerfield IL — *Lead Staff*

SEPTEMBER 2024 - MAY 2025

The DSI Club at Deerfield High School allows students to earn pay to record, announce, and produce high school sports events and tournaments. As a Lead Staff member for the club, I helped organize the other staff/students, coordinated logistics for high school sports events and created new opportunities with business partners, such as Marquee Sports Network.

SKILLS

Sports Media and Television
Production

Programming - Java,
Javascript, Typescript, Python,
learning Rust and React

3D and 2D Modeling
Proficiency

Soldiering and Electrical
Experience

Leadership Roles at 2 different
jobs

AWARDS

Illinois State Scholar
Nomination - Illinois Student
Assistance Commission

FTC Robotics 2025 Illinois
State Champion

Spanish Honors Society
Graduate - National Spanish
Honors Society

University of Kansas
Engineering Dean's
List/Honor Roll Nomination -
Fall 2025

LANGUAGES

Spanish - Honors Society
Graduate and High School
education up to Spanish IV

NSLC Engineering Summer Program, Duke University, Durham NC — *Student*

JULY 2024

During the summer between my Junior and Senior Year of High School, I participated in a two week long summer engineering program at Duke University. During this program I gained hands-on mechanical engineering experience as well as teamwork and communication skills. This opportunity furthered my love for engineering and gave me a glimpse into my future as an Engineering Student.

EDUCATION

Deerfield High School, Deerfield IL — *Student*

AUGUST 2021 - MAY 2025

During my four years as a student at Deerfield High School, I maintained a GPA of 3.72 Unweighted, and 3.96 Weighted. Throughout this time, I was enrolled in a multitude of Honors classes, as well as four different AP curriculums.

I took the AP exams for AP Precalculus, AP Computer Science A, AP Calculus AB, and AP Environmental Science.

The University of Kansas, Lawrence KS — *Student*

AUGUST 2025 - PRESENT

I am currently a Sophomore at The University of Kansas, majoring in Mechanical Engineering. During my first semester at The University of Kansas, I was nominated for the Engineering Dean's List for maintaining a GPA of 3.75 or higher.

PROJECTS

Scorescraper.live — *Lead Developer and Co-Owner*

Scorescraper is a stats platform that pulls real-time game statistics from every level-- high school, college, and the NFL-- and formats them to be visible to your school's fans. A fellow student and I have developed this software, which is currently being used by our high school. We plan to allow new users to register and begin marketing to other schools before September 2025. Feel free to check us out at scorescraper.live

Robotics League Match — *Lead Video Producer and Co-Event Coordinator*

Recently, my school hosted a robotics regionals tournament for 21 different teams. My job, in addition to helping coordinate the entire event, was to produce the day's events on the Deerfield High School Athletics YouTube channel. By utilizing a batting cage lift that was already installed in the

gym's ceiling, I hosted a camera and microphones into the air for a top-down view of the field. We received many positive comments regarding the stream and the tournament. The production video is linked at stream.deerfieldrobotics.org

Marquee Community Showcase Football Game— *Assistant Producer*

The TV Company, Marquee Sports Network, hosts a weekly football showcase between two nearby high schools. My high school was fortunate to be picked to show our Homecoming Football game. Over 2 months of preparation went into the event for it to run smoothly on live television. My role in the production was to fix any camera issues on the roof of the press box, as well as being in charge of all audio and commentator-related issues.

Marquee Community Showcase Basketball Game— *Lead Producer and Student Representative*

The TV Company, Marquee Sports Network, also hosts a weekly basketball showcase between two nearby high schools. My high school was fortunate to be picked to show one of our girls basketball games live on air. 4 weeks of preparation went into the event for it to run smoothly on live television. My role in the production was to help set up the whole event, in addition to coordinating directly with the Marquee production team. Unlike the Marquee Football Game, they trusted me enough based on my previous work, to not send out a representative to oversee the operation. Because of this, I was also in charge of TV timeouts and communicating with the commentators about when they were on or off the air.
